

§Appl. No. 10/620,798
Amdt. dated May 14, 2007
Reply to the Final Office Action of, October 13, 2007

REMARKS

Single independent claim 8 and dependent claims 9, 10 and 12-15 remain in this application for examination, the subject matter of claim 11 having been combined with independent claim 8 to place the allowable subject matter of claim 11 in dependent form. Claim 8 has been further amended to place the insert flaps 31 and 35 and the tabs 33 and 37, respectively depended therefrom in a separate paragraph which recites:

opposed insert flaps extending in opposite directions with respect to the panels from fifth and sixth panel seams wherein the opposed insert panels fold to form sides of the box extending perpendicular to the front and back panels when the front and back panels are parallel in spaced relation to form the box, the insert flaps having insert tabs that extend into the box in parallel relation to the panels to hold the box closed.

It is clear from Applicant's drawings that the insert flaps 31 and 35 extend from opposite directories with respect to the back panel 21 and front panel 11. It is unduly restrictive to limit Applicants' claims to extension of both insert flaps from the sample panel. According, claim 8 as amended gives applicants fair protection for their invention while including the subject matter for allowable claim 11.

In that claim 8 now includes the subject matter of allowable 11 and all claims in this application now depend from the allowable subject matter of claim 11, it is respectfully submitted that this application is now in condition for allowance.

If the Examiner for any reason feels that a personal interview with Applicants' attorneys might expedite prosecution of this application, the Examiner is respectfully requested to telephone the undersigned locally.
